

## Construction of a new production facility for dermal fillers in Dessau, Germany

Merz Pharma GmbH & Co. KGaA

Realisation Period: 2016 - 2018

Services: General Engineering

Total Investment: 15.0 mill. EUR

At the MERZ Pharma site in Dessau, a new production facility for dermal fillers will be constructed (building size 1,200 sqm). AIC took over the General Engineering for this investment project.

The manufactured medical products are used in the field of aesthetics and neurology and manufactured according to highest international standards under clean room conditions.
